## WORK EXPERIENCE

- **MGTech IT Solutions**  
Backend Developer-Election Vote Count System (2024 Senatorial Elections)
  - Developed and maintained the backend infrastructure for a real-time Election Vote Count website. Designed RESTful APIs to manage and serve voting data retrieved from an automated downloader terminal.
  - Implemented secure data processing, database optimization, and seamless integration with the frontend interface to ensure accurate and timely vote visualization. The platform was accessed by a wide audience, including media representatives, civic organizations, and influential individuals monitoring the election results.
- **MGTech IT Solutions**  
Technical Support
  - I provided support to a department for issues related to computers, printers, and other technical equipment.
